

FLOWERS TO LOOK OUT FOR

Gousblom (<i>Arctotis hirsuta</i>)	Bokbaai vygie (<i>Dorotheanthus bellidiformis</i>)	Elandsvy (<i>Carpobrotus acinaciformis</i>)	Sporrie (<i>Heliophila coronopifolia</i>)	Magriet (<i>Ursinia anthemoides</i>)	Soetuintjie (<i>Moraea fugax</i>)	White rain daisy (<i>Dimorphotheca pluvialis</i>)
						
These captivating plants flower in feisty orange, yellow and creamy whites, and are found on <u>sandy slopes and flats</u> in the Western Cape from August to December.	One of South Africa's most famous wildflower exports. Each flower has many lance-shaped petals, and can be found in a variety of colours, including white, yellow, orange, pink, purple and red – some even with contrasting colours at the base, fading up to a new colour with an ombré effect.	Related to suurvly plants, this <u>succulent flower</u> blooms pink, white and purple in the coastal rocks and sandy dunes of the western coastal fog belt in the winter-rainfall area	<u>Sporrie blooms</u> are the only blue flowers in the West Coast National Park, and bloom upright with white centres, turning green fields into swaying seas of blue.	These <u>bright-yellow flowers</u> are eye-catching wonders. They stand solitary on long stalks, with brown centres encircled by yellow florets.	These <u>bulbs</u> bloom in yellow, white or purple, and are distinguishable by their beak-like shape.	These <u>daisies</u> bloom from August to October. The blooms, with their bright white petals and purple centre, can cover large patches of land like snow, and open to the sun from about 10am to 4pm, turning to follow its path through the day.
